

## 2. FOIL SELECTION GUIDE

Capacitor component	Capacitor type	Application	State	Foil types					
ANODE	DC High voltage	Low CV Low ESR	Etched	H200-2	H200-3				
			Formed	H203-2	H203-3				
		Standard CV	Etched	H100-2	H100-3	H100-4	H100-5	H100-6	H140-6
			Formed*	H104-2	H104-3	H104-4	H104-5	H104-6	H144-6
	High CV	Formed	H104-7	H104-8					
	Motor Start	Standard duty	Formed	S543-1	S243-2	S243-3			
Heavy duty		Formed	S249-3	S249-4					
CATHODE	General purpose		Etched	F-210	F-325				
TABBING	General purpose		Unformed	T100	T150	T200			
			Formed	T100	T150	T200			

These foils remain also available in the H103-X series formed with classic process. The gain is similar to H104-X foils
